02 collection news

Be inspired in our collection news with unique design in rattan and Cane-line Rope. Soft shapes and cool lines add new dimensions and possibilities to style your personal space.

08 lounge

It is time to relax. Are you looking to soften the stringent design, give your lounge a personal touch or just experience the same comfort outside as inside your home? Be inspired in our lounge universe.

18 dining

Gather your loved ones around the dining table. Do you prefer your dining furniture with cool lines or a warm glow? Is your style minimalistic, bohemian or urban? The possibilities are endless.

30 living

Your home is your life. Our living room has indefinitely expanded to the outside. Our designs inspire to create spaces of unique style for your best leisure moments.

44 outdoor

You can enjoy life outside as we have used countless hours developing and choosing the right materials for our furniture. Cane-line Elements is a flexible concept and most of the designs can also be used outside.

56 accessories

Small tables, cushions, rugs and storage boxes are all details that add the finishing touch to a design furniture setting. Create the unique atmosphere with Cane-line accessories.

life made comfortable

Do you need a garden to have outdoor furniture? Not really. The way we live is rapidly changing, and new, individual needs arise. With 30 years of knowhow, we have extended our assortment with Cane-line Elements collection. A vibrant and living collection of unique design elements based on functional, timeless and socially responsible principles. Inspiration has been life and nature around us and the aim is to make your life comfortable. Create your personal style with Elements fashioned in Scandinavian colours and innovative designs.

Social values

Go on, lean back with a clean conscience. We continuously make sure, that all our products are manufactured with the greatest care for our environment and the well-being of people.

From weeds to design

Rattan

Rattan is the rascal of the jungle. Rattan belongs to the palm family. Rattan is a climbing plant that grows over trees and other plants in the rainforest. There are about 600 species of rattan. Cane-line uses only the best and strongest for furniture production.

Cut manually

Cane-line rattan is cut down manually in order not to damage the flora and fauna. For the locals, rattan is an alternative to cutting down the rain forest around them.

Sustainable

Rattan is an incredibly fast growing palm, which makes it a very sustainable material. The outer layer of the rattan plant is peeled off and used for weaving. The core of the rattan is used to make furniture, which due to its movement and flexibility enables it to create a unique and very comfortable design.

Meet our designers

The essence in all our furniture is enjoyment on every level. While the designers constantly strive for style and functionality in their creations, the core issue for any Cane-line product will always be comfort. Our design teams are quite different in their design expression, spanning from light and airy to contemporary and minimalistic. Common in all designs is an understanding of our vision - to produce furniture that can interact and merge regardless of material, colour or setting. The Cane-line designers share deep roots in the Danish design tradition built on craftsmanship, quality and a simple yet distinctive expression. At the same time, this complies with the Cane-line course that is gaining grounds globally. The Nordic light flourishes in every single design, as does the love for precious moments. This foundation makes it easy for our strong team of designers to live up to the essence of Cane-line - Life Made Comfortable.
