OUTDOOR LIVING 2019

Since 1962 The Art Of Weaving

Una filosofia di lavoro, una di quelle arti rare, un patrimonio da preservare e tramandare, in un tempo invaso dalla tecnologia, dalla macchina, dall'automatizzazione. Un'arte tra le più antiche che sa ancora intrecciare il passato col presente; un'arte fatta di tecnica e sapienza, Intuizione e conoscenza del materiale e delle sue potenzialità. Immaginazione che diventa oggetto concreto e solido.

A real philosophy of work, one of those rare arts, an asset to be preserved and passed on, in these times so overwhelmed by technology, machines and automatization. An art among the most ancient ones, which is able to weave past and present, telling little stories of human beings. Made of technique and skill, intuition, study and knowledge of materials and their potentialities, made of imagination turning into a concrete and solid object.

Eine echte Arbeitsphilosophie, eine jener seltenen Künste, ein Bestand zu bewahren und vererben, besonders in einer Zeit, wo Technologie, Maschinen und Automatisierung dominant sind. Das ist eine der ältesten Künste, die Vergangenheit und Gegenwart miteinander verknüpfen kann. Eine Kunst aus Technik und Weisheit, Intuition und Kenntnis des Materials und seiner vielfältigen Leistungen, Fantasie, die sich in einen soliden und konkreten Gegenstand verwandelt.

LA STORIA

Al centro dell'Italia, le Marche, terra dal cuore genuino e dalle mani artigiane. Nel cuore delle Marche, Mogliano, piccolo borgo incastonato fra le colline maceratesi. Parte da qui, cinquant'anni fa, la nostra storia e Giuseppe Parigiani ne scrive il primo fondamentale capitolo. Una storia che racconta di famiglia e legami radicati, di un mestiere fatto di fatica e necessità, evolutosi nel tempo in ricercata arte, che fonde sapientemente utilità e bellezza. Domenico raccoglie l'eredità del padre Giuseppe, portando avanti un percorso volto alla qualità, alla ricerca dei materiali e del design. Un racconto a tre generazioni che Domenico e suo figlio Matteo continuano oggi a scrivere con un gusto contemporaneo, seppur conservando gelosamente quello stesso antico ideale di tradizione.

HISTORY

Le Marche, land of genuine and handicraft soul. In the very heart of Le Marche, Mogliano, small village set within the hills of Macerata area. This history begins here, fifty years ago and Giuseppe Parigiani wrote its first, important chapter. A history which tells about family and rooted ties, about a craft made of effort and need, then evolved into a refined art masterly, melting function and beauty. Domenico follows in his father Giuseppe's footsteps along a path aiming at superior quality, through study and research: materials, design, innovation, solutions. A three-generation-tale that Domenico and his son Matteo, keep on writing with contemporary taste and gestures by holding that same old ideal of tradition.

ÜBER UNS

Le Marche, das Land der Handfertigkeit und Echtheit der Seele. Im Herzen von Le Marche, liegt das kleine Dorf Mogliano in den Hügeln von dem Gebiet Macerata. Unsere Geschichte beginnt vor fünfzig Jahren genau hier und Giuseppe Parigiani schrieb das erste, wichtige Kapitel. Das ist die Geschichte einer Familie und ihrer verwurzelten Beziehungen, eine Erzählung über handwerkliche Arbeit, Mühe und Not, ein Handwerk, das sich in eine raffinierte Kunst entwickelte und verschmelzete Nutzbarkeit und Schönheit zusammen. Domenico folgt die Spuren seines Vaters Giuseppe, mit grosser Aufmerksamkeit auf Qualität und Forschung neuer Materialien, Design und Neuentwicklung. Eine Geschichte aus drei Generationen, die Domenico und sein Sohn Matteo mit Beachtung der Tradition und Berücksichtigung der Gleichzeitigkeit weiterschreiben möchten.

MANTAINANCE

A causa dell'inquinamento atmosferico, particelle di smog o di altra natura possono depositarsi sul tessuto Tempotest: lo sporco di questa natura può essere rimosso semplicemente spazzolando la superficie del tessuto con una spazzola morbida e successivamente utilizzando una semplice soluzione di acqua e sapone. Dopo aver spazzolato, risciacquare accuratamente per rimuovere totalmente il sapone. Evitare la formazione di sacche d'acqua e lasciare asciugare il tessuto steso all'aria aperta prima di ripiegarlo. Durante la stagione invernale è consigliabile riporre il tessuto in ambiente asciutto e ventilato. Una cattiva manutenzione può compromettere la proprietà idrorepellente. Nel tempo, per sopperire la naturale perdita di idrorepellenza è consigliabile l'uso dello spray T202 disponibile presso i migliori rivenditori.

Because of air pollution, smog or other kind of particles may be deposited on fabric Tempotest: the dirt of this nature can be removed by simple brushing the surface of the fabric with a soft brush using simple a solution of water and soap. After brushing, rinse thoroughly to remove the soap completely. Avoid formation of water bags and let the fabric dry in the open air before rewind. During the winter season it is advisable to store the fabric in a dry and ventilated environment. A bad maintenance could compromise the waterproofing. Over time to compensate the natural loss of water repellency, it is advisable to use the spray T202 available by best retailers.

Durch Umweltverschmutzung können sich Smog oder sonstige Partikel auf dem Tempotest-Gewebe ablagern: Schmutz dieser Art kann ganz einfach durch Abbürsten des Stoffes mit einer weichen Bürste und danach mit einer einfachen Wasser-Seifenlösung entfernt werden. Nach dem Abbürsten gründlich abwaschen, um die Seife komplett zu entfernen. Bildung von Wasseransammlungen vermeiden und den Stoff im Freien trocknen lassen, bevor es wieder aufgewickelt wird. Es empfiehlt sich, den Stoff über den Winter in einem trockenen, belüfteten Raum zu lagern. Eine schlechte Instandhaltung kann die Wasserundurchlässigkeit beeinträchtigen. Um das natürliche Nachlassen der wasserabstoßenden Wirkung im Laufe der Zeit abzuwehren, ist die Verwendung des Sprays T202, der in gut sortierten Fachhändlern erhältlich ist, zu empfehlen.
